

CIA NO 05-624-SLR

Dear Judge Robinson

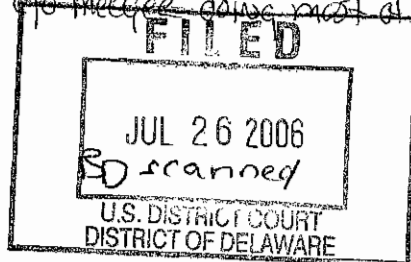

My NAME is Harry T Collins and as you know I have a current law suite in your Court, At this time I'm asking to amend my law suite again, on the grounds that I'm stating here below

Since I started this law suite I've had a lot of problems with my stomach and I was led to believe that it was all because of my gall bladder, and so after 7 months of waiting they finally sent me out for a operation, but I also had alot of stomach pains and one doctor ordered a cat scan because he didn't believe that all the pain was coming from my gall bladder.

It's been 5 months now and I'm still having the same problems and there getting worse, and I feel that it might be stomach cancer, or colons cancer, they have ordered test which I'll probly max my time out before these test are made, if I were home or when I get home I would go right up to the emergency room and find out whats going on with me, and I feel that if it is cancer, that by the time I got out of here, it might as well spread to far to be in effective treatment. I have degenerative arthritis, a bad back, flat feet and stomach pains on top of that, I have been made to carry a mattress because I was caught laying down, made to stand on what they call the foot prints and eat meals for long periods of time because I had to use the bathroom, and the abuse goes on and on.

I am work release and the reason they sent me down here is because of my current law suit in your court, they were afraid that I would file suite on them as well, and since I am work release, if I were still in the CIVIC Center I wouldn't be subject to the type of abuse that I'm facing here everyday, if my health were much better than what it is I wouldn't mind what they do, I think some of things that they do is funny because it brings back memories of when I was in the service, but for some one in my current health condition, this is not were I should be, I have seen terrable things happen to people in here, and I don't understand how they are able to get away with some of the things that they do, so thats why I'm asking to amend my current law suite against the medical for letting this place treat me like this and also S VOP center, for treating the way they do, ~~knowing~~ knowing what my current health status is.

I'm especially having a ~~no merger~~ doing most of this stuff to me

Sincerely Yours

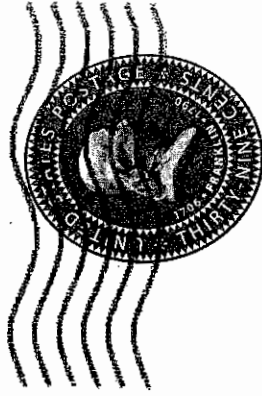

Harry T Collins
